

## Information on 2G Plus and testing

Dear guests

From 22 December 2021, employees of the Dr. Hörmann pharmacy in Weinfelden will offer the test at our premises on a daily basis:

### **What does 2 G Plus mean?**

Not recovered, vaccinated (2nd vaccination) or boosted (3rd vaccination) for the last 120 days.  
All others are automatically 2 G Plus.

### **Who needs to test?**

All guests who only have a 2G certificate and would like a 2G Plus certificate in order to also be able to use the wellness & fitness area or participate in the activity programme.

### **Who can test?**

All guests. See costs below.

### **Where / when will the test take place?**

Testing will take place in Meeting 1, 1st floor, between 11 am and 12 pm.  
Input for the test: Meeting 1

### **Which test is taken for 2 G plus?**

Guests who only have a 2G certificate can get a 2G Plus certificate with the antigen quick test. This certificate is then valid for 24 hours.  
This means that guests who stay with us for several nights have to renew the certificate every day, i.e. go for a new test every day. The certificate must be valid until departure if you still want to use the pool or sauna, etc.

### **Which tests are generally possible with us?**

Rapid antigen test | valid for 24 h | free of charge for Swiss citizens or persons with health insurance in Switzerland | you will receive the result immediately.

The antigen quick test costs CHF 50 for all other guests (e.g. for our guests from Germany).

PCR tests (also for travel) | valid for 72 h | CHF 150 for all | Test result will not be available until the following day between 16-17 h.

### **In what way is testing carried out?**

Both the rapid antigen test and the PCR test are done via the nose (nasopharyngeal swab).  
If someone does not want to do this, a test with gargling would also be possible. This prolongs the time needed for the test result (residues of nicotine, toothpaste, etc.).

### **What happens if antigen is positive?**

To be on the safe side, an additional PCR test is then carried out.

### **What happens if the PCR is positive?**

Then the test is free for Swiss citizens or people with health insurance in Switzerland.  
You have to stay in the room (isolation) and may only leave the room for possible departure or a doctor's appointment. We will be happy to help you organise this.

### **Who cashes in?**

The staff of the Dr. Hörmann pharmacy collect the money directly with EC/Cash in the meeting room.

WELLNESSHOTEL ★★★★★  
**GOLF PANORAMA**  
LIPPERSWIL THURGAU SCHWEIZ

### How do you get the certificate?

Directly to the smartphone with the Covid app. Alternatively, it can also be printed out.

### What do I do if I arrive and want a 2G plus certificate?

Then you should come for testing at 11 am on the day of arrival. Or have them tested independently in Weinfeldern or in another test centre before arrival.

Test centres from Thurgau are here: <https://gesundheit.tg.ch/aktuelles/testung-auf-covid-19.html/11365>

Without the 2G Plus certificate you are not allowed in the wellness area, fitness room or to participate in yoga and fitness classes. But they are allowed in the restaurant and in your room.

Please note that the room will be ready for you by 3 pm on the day of arrival at the latest.
